# ONE FROM MANY:

There are many reasons we are ONE FROM MANY. The school itself was originally made up from several former schools, but has developed its own singular identity. As an identifiable entity, it is establishing itself rapidly as pleasantly unique among the many schools in the state. Within this school are many groups, but all form one school. The ways that we are ONE FROM MANY are as varied as the reasons the school was built, and they, in turn, are as many as the people who support it, but one reason stands out from many: the students, first and last, individually and collectively. This book is also first and last for the students. Hopefully, as one book it is unified and diversified as our students, for this book is also sure to be one from many.
